INTRODUCTION

The “Greenways Outdoor” project consists of the creation and transnational promotion of an outdoor tourism product linked to European greenways, and the capacity building of SMEs located in their vicinity so that they can tailor their services to the demands of customers and so become more competitive.

The project’s general objective is the diversification of the tourism offer in Europe by generating new, greenway-related products and capitalizing on existing ones, thereby improving the competitiveness of the European greenway-based tourism industry, together with the joint promotion of greenways tourism products to make them better known internationally and so attract more visitors. The aim is also to strengthen public and private cooperation to facilitate the creation and promotion of the greenways tourism product.

In the framework of this project, the Spanish Railways Foundation (FFE) in collaboration with European Greenways Association (EGWA) has prepared this tourism product catalogue on greenways. The partners of the project have also participated in its creation. Products generated in the course of the project have been included as well other pre-existing greenway tourism products.

The new greenway-related tourism product packages generated in the framework of “Greenways Outdoor” have been produced using the tourist product methodology developed in the previous project, “Greenways Product”, co-funded by the European Commission’s COSME Programme and coordinated by FFE. The catalogue resulting from this project already included some initial offers on greenways.

The information came directly from the tourism providers who responded to the call to contribute to the catalogue by providing their offers on greenways, and from other products already available on-line selected by the team that produced the catalogue. An extra effort has been made to include itineraries of recognized standing from other European countries not represented in the project, especially greenways that have won the European Greenways Award.

The catalogue includes 63 packages from 14 different Spanish Greenways.

Current tourism packages offer greenways as a main offer either on their own or in combination with other cycle routes (with shared traffic). But in all cases all the products include greenways, and the offers are aimed at a large target of potential customers.

These tourism packages include information about the actual greenway, the services offered (accommodation, hospitality), any complementary services (bike rental, baggage transport, etc.), cultural resources and activities in the area (visits to museums, outdoor activities, etc.), and a guide to reference prices.

We hope that this catalogue will help develop sustainable tourism on and around European greenways and encourage all kinds of “outdoor” tourists to discover and enjoy the diversity of Europe through its greenways, thanks to the extensive existing offer and the new and attractive products that will no doubt be available in the future.
Greenways are independent non-motorized routes, mainly using disused railways and canal towpaths. Safe, accessible and very attractive, they provide easy access to areas of outstanding natural beauty (e.g. mountainous areas, by way of tunnels and viaducts). There are thousands of kilometres of greenways in Europe with a great potential for development, and they are a very useful tool for the development of tourism in rural areas.

The “Greenways Outdoor” project is developed under the COSME program of the European Union for the competitiveness of Small and Medium Enterprises (SMEs). Coordinated by the European Greenways Association, the project is being implemented by 10 partners from five countries.

- European Greenways Association (Coordinator, European level)
- Spanish Railway Foundation (Spain)
- Via Verde de la Sierra Foundation (Spain)
- Vidzemes Tourism Association (Latvia)
- Comunidade Intermunicipal Viseu Dão Lafões (Portugal)
- Gruppo di Azione Locale (GAL) Polesine Delta delPo (Italy)
- Tourismsagentur Ostbelgien (Belgium)
- Rutas Pangea (Spain) - SMEs
- Diversport (Spain) - SMEs
- Dxocio (Spain) - SMEs

With a budget totalling 320,000 euros and a period of completion of 18 months, the “Greenways Outdoor” project was launched in June 2015 and will end in November 2016.

Further information about greenways and the project is available at www.aevv-egwa.org and www.greenwaysoutdoor.org

**ALCOI GREENWAY**

The best of Valencian region

**Xixarra, Alcoi, Safor, Serpis Greenways:**
Different sections of disused railway lines and other spaces

Region / Country: Valencia (Spain)

**What does this offer include?**

**Description of the offer**

- 6 nights accommodation. 3*/4* hotels.
- 6 Breakfast buffet style or substantial.
- Detailed tour documentation: map of the tour, route description, points of interest (English, German, Italian or Spanish).
- GPS (free of charge).
- Trekking bicycle rental.
- Local assistance on call from 9h to 18h.
- Luggage transfer service between your accommodations.

In the Valencian region there is a great diversity of settings, history, experiences, towns, villages, hamlets and landscapes to be encountered. This diversity is what you’ll experience on a route which weaves together the rugged, mountainous terrain of the interior with that of the contrasting Mediterranean coastal plain.

A considerable part of this route takes in the famous and tranquil, green pathway that winds its way to the sea. You’ll pedal your way past fields, groves of fruit trees, vineyards and natural enclaves of exceptional beauty.

**Nature of the route** has been designed to take advantage, as far as possible, of downhill slopes along valleys that start in the interior and wind their way towards coastal plains and the sea. The route hence does not demand a high level of fitness; notwithstanding this, we have different alternatives that can either shorten or lengthen a day’s ride.

Two thirds of the route goes along the former railway line which is most of it traffic free (84 kms). For the others we have chosen small quiet roads where cars are seldom seen.

Approx. 221 - 288 kilometres by bike

**Description of the offer**

This route is perfect for the ones who want to cycle the greenways while enjoying the landscape and lodging in charming accommodations. The first section of the Greenway allows you to discover the natural resources of La Garrotxa, such as the volcanic area or the quiet and lovely areas related to the rivers Brugent and Ter. Worth it is a stop in Girona, visiting the Cathedral or the ancient Jewish Quarter, one of the best preserved in the world. From here, the greenway drives you to the coast, reaching the Mediterranean Sea. The ride is easy and fun and you’ll be passing through cropland and forests. The last part of the route crosses the Ridaura valley and runs gently down to the seaside town of Sant Feliu de Guixols, where you can relax and enjoy the rest of the day at the beach.

Sun and water will guide your bucolic ride during the 6 stages of this 290 km route, which is part of the Eurovelo 8 European cycling route, also following French and Catalan greenways.

An ideal trip to enjoy the recumbent bike, its relaxed position and its panoramic view, immersed in nature. Riding alongside the sea, you’ll discover quaint villages from Languedoc and Costa Brava, where you will taste delicious gastronomy and famous French and Catalan wines. The tour includes two wine degustations, and visits to the Aiguamolls park and the Empuries ruins (Greco-Roman old villages).

This 6 stage tour is almost totally flat, first alongside the Languedoc coast and then near the Costa Brava.

Narbonne and Girona are now connected through the TGV-AVE high speed trains, allowing an easy access to the start and end of the route.

**Bullas half-day wine tasting tour by electric bike**

**Greenway name:** Noroeste Greenway  
**Region / Country:** Región de Murcia – España

**What does this offer include?**

1. eBike rental with helmet  
2. Guide  
3. Wine tasting  
4. Visit to the Lagares winery

**Description of the offer**

Discover the DOC (Denominación de Origen) wines of Bullas on an electric bike tour of one of the 3 “W ine Routes of Murcia,” riding to the main pagos (vineyard parcels) to uncover the secrets of viticulture in the region.

The tour starts at the Wine Museum in the old quarters of Bullas, a lovely town with a great wine heritage. Then, set off through the pine forests that surround the town, enjoying beautiful views of the vineyards of La Copa. See the impressive house of the Carrascalejo winery, one of the oldest wine estates in the region.

Cycle along quiet paths through the Venta del Pino vineyards, stopping at a winery to taste some wines and local cheeses. Learn about the process of manufacturing wine on a tour of the estate.

Back on your e-bike, ride back to Bullas, enjoying peaceful roads and paths lined with traditional vegetable gardens that extend over fluvial terraces. See the pretty Salto del Usero waterfall over the Mula River. Back in Bullas, your guide will recommend the best places to eat at the end of your tour.

SUBBÉTICA GREENWAY
Charming places of Subbetica Greenway and Doña Mencía

Greenway name: Subbetica
Region/Country: Andalusia/Spain

What does this offer include?
Description of the offer

1. Cycle route guided by the Greenway, Doña Mencía cycleway route visiting charming places and ending with a visit to a winery tasting wine from DO Montilla Moriles.

2. Tour guide, bicycle and helmet

The route "Enchanting Places" is presented as a way of uniting the Via Verde of the Subbética, the historical and cultural patrimony of Doña Mencia and its famous wines.

The starting point on the Via Verde gives us the opportunity to take a walk through surroundings with breathtaking views of the Natural Park "Sierras Subbéticas" along the old railway where the original train stations from Jaen to Puente Genil still exist. This route was known in its day as the "Olive Oil Train Route".

The bike lane leads to the historical center of Doña Mencia where you can visit the Castle Monument and the Calvario Mirador. The Pilar de Abajo lets us experience a sense of peace and tranquility along with a special aroma and the crystal clear waters of the fountain itself.

The tour takes us further into the town with its curvilinear street plan and unique houses until we arrive at the Denomination of Origin Montilla-Moriles wineries and the Wine Museum where you can taste the variety of fine wines which are produced in Doña Mencia.

**What does this offer include?**

1. Cycle route along the Via Verde 3 hours for 2 people.
2. Food Restaurant in the Hotel Zuhayra fortwo people (alcoholic drinks not included)
3. Tour to Bat Cave

Possibility of overnight accommodations for two at the Hotel Zuhayra **, subject to the customer himself

**Description of the offer**

The Subbética Greenway runs part of his tour of the limits of the Sierras Subbéticas Natural Park. This natural area declared Geopark by UNESCO in 2006 stands out for the typical geomorphological manifestations of karst landscape, represented by sinkholes, polje, peaks, canyons and caves.

The Bat Cave is a true reflection of landscape modeling for water, as well as an important archaeological site with cave paintings. In this experience the cyclist can discover the contrast Greenway landscape with stillness and solemnity of entering in a cave with a spectacular route.

**Description of the offer**

Discover the Greenway of the valley of Zafán, Terra Alta and Baix Ebre. The total distance of the ride is 90 km. This can be done over 1, 2 or 3 days, or in stages such as the most common Horta to Xerta of 32 km. The ride travels through the natural park of Els Ports alongside rivers though the counties of Mattaranya, Terra Alta and Baix Ebre. This is only 1 hour from the famous natural park of the delta of Ebre. This particular Greenway has a great amount of history because the tunnels were used as holsptals and shelters during the Spanish civil war in the Battle of the Ebro.

### Val de Zafán Greenway

**Nombre de la vía verde:** Val de Zafán  
**Comunidad Autónoma/País:** Terra Alta/ España

**¿Qué incluye esta oferta?**

1. Alojamiento 7 noches
2. Régimen: posibilidad en AD o MP
3. Ruta de senderismo a lo largo de la Vía Verde: 6 caminatas diferentes
4. Picnic y transporte de equipaje incluido
5. Descripción de la ruta, información turística y mapa incluidos

**Descripción de la oferta**

Esta ruta serpentea por las montañas energéticas del Parque Natural del Ports y termina en las playas tranquilas y entre los campos de arroz en el parque natural del Delta del Ebro. La ruta también ofrece una gran diversidad de paisajes y comienza en Horta de San Joan. Este pintoresco pueblo debe su fama a la estancia prolongada de Pablo Picasso, que encontró una fuente inagotable de inspiración en la belleza de la naturaleza. Ven y velo por ti mismo.

XIXARRA GREENWAY
The best of Valencian region

Xixarra, Alcoi, Safor, Serpis Greenways: Different sections of disused railway lines and other spaces

Region / Country: Valencia (Spain)

What does this offer include?

- 6 nights accommodation. 3*/4* hotels.
- 6 Breakfast buffet style or substantial.
- Detailed tour documentation: maps of the tour, route description, points of interest (English, German, Italian or Spanish).
- GPS (free of charge).
- Trekking bicycle rental.
- Local assistance on call from 9h to 18h.
- Luggage transfer service between your accommodations.

Description of the offer

In the Valencian region there is a great diversity of settings, history, experiences, towns, villages, hamlets and landscapes to be encountered. This diversity is what you’ll experience on a route which weaves together the rugged, mountainous terrain of the interior with that of the contrasting Mediterranean coastal plain.

A considerable part of this route takes in the famous and tranquil, green pathway that winds its way to the sea. You’ll pedal your way past fields, groves of fruit trees, vineyards and natural enclaves of exceptional beauty.

Nature of the route has been designed to take advantage, as far as possible, of downhill slopes along valleys that start in the interior and wind their way towards coastal plains and the sea. The route hence does not demand a high level of fitness; notwithstanding this, we have different alternatives that can either shorten or lengthen a day’s ride.

Two thirds of the route goes along the former railway line which is most of it traffic free (84 kms). For the others we have chosen small quiet roads where cars are seldom seen.

Approx. 221 - 288 kilometres by bike
